

# Montana Kids have bright futures

Keep  
them  
that  
way!

**You can help. Teach kids about METH.**

**Prevention education can make  
a difference for Montana kids.**

The Montana State Superintendent of Public Instruction, Linda McCulloch, has teamed with Montana State Attorney General Mike McGrath to create powerful tools that use a **positive youth development model** to teach our kids key messages about meth.

# Tools for Schools

10 dynamic and easy-to-use  
PowerPoint presentations

## **For Middle School Students** (grades 6–8)

- Meth Basics
- Meth and Weight
- Not Your Average Joe
- Saying No to Meth

## **For High School Students** (grades 9–12)

- Meth Basics
- It Can't Happen to Me
- Creating Your Own Ad
- Family and Meth
- Friends and Meth
- Meth and Community

## **Each 20-30 minute presentation includes:**

- a detailed lesson plan
- teaching tips
- suggested additional activities
- key vocabulary
- additional resources
- web links
- Plus a "Jeopardy-style" game to test students' knowledge about the dangers of meth.

## **Materials are designed for use in**

- English classes
  - physical education classes
  - family life classes
  - health classes
- also**
- community health educators
  - youth clubs and organizations
  - any group that reaches kids
